THE ESSENTIALS ......................... 20
It began with the creation of an office on wheels that could move along with crews as they built miles of interstate highways in the 1950s. It continues to evolve today with panelized products that can be configured in a multitude of ways to thoughtfully curated packages – our Essentials packages with a mix of furniture, appliances and add-ons that outfit your mobile office with everything you need to be “ready to work”.

What prompts the need for additional space? The most typical reasons are company growth, new construction, renovations, changes in school population, and both natural and man-made disasters. Our goal is to provide the best customer service in the industry and we work hard to make your leasing experience easy, efficient, and economical. Now, pairing our modular solutions with one of our Essentials packages increases the value of that service significantly and ensures you are “ready to work” from day one. You can also be assured that our products are made with durable, high quality materials that meet national and state building, electrical, mechanical and plumbing codes.

Headquartered in the historic Fell’s Point area of Baltimore, Maryland, we are proud to be the modular supplier of choice for both national corporations as well as local businesses. All of our customers are served by dedicated sales and service teams operating branches that are an integral part of local communities in over 90 locations.

The passion that began over fifty years ago is rekindled every time we connect with our customers. For us, there are no space problems just solutions.
MODELS MO208 & MO248

When your business requires a larger, more permanent space solution our Redi-Plex buildings are the perfect solution. Durable, secure and easily configured to meet your needs, our Redi-Plex buildings offer advanced versatility. Large, open floorplans are created using clear span construction, eliminating interference from support columns. Whether you need an open floorplan or a custom layout with private offices, conferences rooms or break areas, our Redi-Plex buildings provide the flexibility to create the exact space you need. All of our Redi-Plex buildings are made with durable, high quality materials that meet national and state building, electrical, mechanical and plumbing codes and are supported by the best customer service in the industry. We also provide a variety of additional products, including steps, ramps, and awnings, and convenient furniture packages thoughtfully designed to fit your space, saving you time and money, so that your space is outfitted with everything you need to be ready to work.

*Additional floor plans available. Floor plans and specifications may vary from those shown, and are subject to in-stock availability.

READY TO WORK

The fully streamlined space solution.

When it’s time to be productive on a project, you need temporary space that’s as ready as you are. Our modular solutions are complete to the last detail, so you can forget about building logistics and focus on the job at hand. One call to WillScot and you’re ready to work.

When the solution is perfect, productivity is all you see.
ONE STOP SHOP

From building configuration to delivery to setup, we cover every detail to make your job easier.

1. Initial Call
2. Consultation & Prices
3. Delivery
4. Ready to Work
THE ESSENTIALS

Office Area

From basic desks to semiprivate work areas, we can provide the necessary furniture and storage that make your workspace a productive one.

Common Space Area

Our furniture and solutions facilitate collaborative working and training while addressing common space needs.
Break Room Area

From a short break to full lunchtime needs, our refrigeration, cooking and coffee mess items outfit a space that will keep your employees fueled up and at the top of their game.

Outside Area

We’ve developed packages specifically addressing the exterior needs of your workspace as well. All are designed to increase the safety, accessibility or security of your temporary office.

*Additional floor plans available. Floor plans and specifications may vary from those shown, and are subject to in-stock availability.
